

KS7b

LIFT Boot version

	lift weight	cassette measurement	A (max.)	B (max.)	C (max.)
1400	320 kg	2.040x1.040x185	600 mm	900 mm	335 mm
1800	410 kg	2.300x1.080x185	800 mm	1200 mm	335 mm

DESCRIPTION

- Power supply: 24v / max 50 A
- 300 Kg Load capacity.
- According to Regulations: EC2001/85 + DDA + UN R107 + R118
- Protective handrails.
- Front and rear protective stops, for a maxima security.

ADVANTAGES

- Hydraulic cassette lift designed for urban, intercity, and coach vehicles, ensuring optimal space efficiency.
- Available in a fully automatic version or with manually operated handrails.
- Installed below the floor (luggage compartment) with a dedicated door.
- Available in different models to accommodate varying floor heights: 1400- 1800
- No need for external hydraulic or pneumatic installation. The pump is integrated within the cassette, enabling a straightforward plug-and-play setup.
- Simple and intuitive operation through a pendant control.
- All functions can be manually operated in case of power supply interruption.
